Welcome!

Your physician has recommended a referral to a fertility specialist. Whether you have been trying to have a baby for a long time or are just getting started, we understand the strain it may have on you and your partner. We will do our best to facilitate the referral process. The goal of our physicians is to provide you with the most accurate assessment of your situation and to help you proceed as quickly as possible to successful treatment. It is very helpful for us to have accurate information to get started including: **Day 3 FSH and Estradiol** (Day 2-3 is acceptable), **Semen Analysis** and an **Hysterosalpingogram (HSG)**.

Let us introduce you to Pacific Fertility Center:
